

Nothing Is Made For Eternity

(Helmut Huber)

There was a time, when we lived a dream
I remember how happy we have been
I thought that nothing could come between you and me
But you know – Nothing is made for eternity

Empty rooms like the emptiness I feel in my head
I don't understand what happened, some time ago we still felt so glad
But like colours fading in the sun
Our love got paler, it got colder - And now you're gone

Our love was strong
It was intense but it didn't last
So many things went wrong
We had too many problems in the past

Our love was strong
It was intense but it didn't last
So many things went wrong
We had too many problems in the past

So much wasted feeling, so much love in vain
So much lost time and so much senseless pain
But who knows the meaning of it all, who knows his fate
The only thing I see is, we made mistakes and I feel now it's too late

Our love was strong
It was intense but it didn't last
So many things went wrong
We had too many problems in the past

Our love was strong
It was intense but it didn't last
So many things went wrong
We had too many problems in the past

(Repeat chorus)
